

Replicable Designs for Thermally Comfortable Affordable Housing

Stakeholder Consultation 02

Date : 11th November 2022, Friday | Time : 3:00 – 5:00pm

ABOUT THE PROJECT

The project intends to enhance climate resilience and thermal comfort in buildings by adopting appropriate passive measures, locally available and low embodied energy materials coupled with appropriate available construction technologies for affordable housing. The main objective is to develop a Catalogue of Replicable Design options for Thermally Comfortable Affordable Housing by minimizing discomfort hours in homes through passive design measures.

TARGET GROUPS :

Stakeholder consultation is organised to present the outcomes under the assignment to the identified stakeholders ranging from Developers, Financial Institutions, UDDs, PWDs, ULBs, etc. The feedback received from stakeholders will be incorporated into the proposed activities.

AGENDA

Session	Time
Welcome Remarks	3:00 – 3:10
Introduction: 1. Project timeline 2. Project objectives	3:10 – 3:20
Session 1: Design development and overview of Thermally comfortable affordable housing typologies.	3:20 – 3:40
Session 2: Selection of master sets and plan sets.	3:40 – 4:00
Session 3: Parameters for testing of thermal performance in all climatic zones.	4:15– 4:35
Session 4: Overview of Master set package 1	4:35 – 4:55
Concluding remarks	4:55 – 5:00
